Contract for Student Use of School Owned Guitar

After careful consideration of your individual situation regarding the acquisition of an instrument for your child, the principal of your school and I have agreed to loan your child a county-owned string instrument for use in class this year. Students selected for this privilege must abide by the following regulations:

1. Attend rehearsals regularly, practice assignments at home, and complete all class assignments.
2. Participate in all performances schedules for his/her ensemble. (If a student should be absent, he/she must follow classroom rules to be excused from the concert.)
3. Maintain a letter grade average minimum of "C" in strings class each grading period.
4. Demonstrate reasonable care of the instrument issued.

Parents are responsible for usual maintenance of this instrument, which generally includes string breakage, body, and repair for strings. Greenville County expects reasonable care to be exercised while this instrument is under contract.

In addition to the responsibilities listed above, your fair share for use of this instrument for the semester will be **\$20** for a stringed instrument.

If you agree to these requirements, your child will be issued an instrument if one is available.

By signing this contract, I am indicating my intent to abide by the regulations for use of a school-owned instrument. I understand that all school instruments are property of The School District of Greenville County, and that violations of the regulations above or a lack of proper care for the instrument may subject me to withdrawal of the property assigned.
